### **General Business**

The President, Rohan Marks, asked for questions from the floor.

Mick Cole, regarding why there are so many council vacancies. President, Rohan Marks said that it has been the same for a few years. There are similar vacancies across each zone.

Tom Gleeson, regarding the notice of motion that was submitted at the Management Committee Meeting. That it was moved that there will be no 50% late fee on membership from next year. That members are encouraged to submit their feedback to the Management Committee regarding day membership and that they will need to determine how much it is going to cost to get day membership happening.

Warren Watts, regarding the cost of Campdraft One being \$1.5 million already, and if any of the costs regarding the three staff that have come on board having been included. Gabrielle Franklin, confirmed that staffing is covered under operational costs.

Sean Dillon regarding the strategic review that was undertaken that was representative of members, encouraging that ACA have their own nominations platform, hence Campdraft One was built.

Warren Watts, regarding the costs of membership verse the income received and Warrick Watts, regarding the collection of membership fees in line with the budget.

Sean Dillon, regarding it being an assumption that the income targets will not be met by the end of the year and that the budget is devised with the assumption that 'no member would pay late'.

Warrick Watts, regarding, how many members have been budgeted for this year. Gabrielle Franklin, confirmed that the income is budgeted on 9500 members.

Gayle Shann, regarding the large body of work done by the Management Committee to build Campdraft One, and the industry standard costs of information technology projects.

Mick Cole, commended the Executive for what happened at the Management Committee Meeting earlier in the day, stating it gave an insight to the members on what goes on and stated it was a credit to them.

Mick Cole, regarding concerns about staff turnover. Hugh Philp, regarding that staffing problems have been ongoing for many years. Mick Cole, regarding if we are doing enough in the office to keep people employed, and that he is concerned that it is top heavy. Hugh Philp, regarding an under 25 age group only sticking to a job for under 12 months and that for some, it is an intense role, and some aren't suitable to the role.

Sarah Dillon, regarding the message on the ACA phones, advising callers to be respectful to staff, that it's disappointing the members and committees calling need that reminder.

Rohan Marks, regarding the younger age demographic within the workplace, playing an effect on the workforce. The stressors that are put on employees in the roles, with confronting phone calls and stress in the job. That the Executive, with the Operations Manager, have attempted to lift the age group of employment, recruiting staff in the office that are more experienced.

Sean Dillon, regarding the processes that are currently in place regarding welfare to employees, exit interview processes, industrial relations, are currently at the most mature stage of processes which are aimed at protecting, not damaging individuals, and ensuring we have safe work places.

Mac Shann, encouraged members, to take home the thought, instead of attacking, try helping and consider Peter Petty's three words from his report; value, trust & support.

Pete Comiskey, regarding members need to come with a solution, not the problem. We need more people to help.

Tom Gleeson, regarding that from the outside looking in, there is no doubt that the expenses in the office are too high. However, the staff are employed by the Executive, to do a job. Tom Gleeson, encouraged members that if there is constructive criticism, or help, as Pete Comiskey suggested, then to come forward.

### **Meeting Close**

President Rohan Marks declared the meeting closed at 7.23pm.

#### **General Business**

Read by President, Hugh Philp.

Mac Shann gave a vote of thanks to Hugh and expressed his disappointment at the negative attitude from members. Hugh Philp responded by outlining the process for complaints to be submitted through the ACA Office for review by the Management Committee.

Norma Shannon expressed her concerns regarding Campdraft One. Hugh Philp responded with an explanation that members are welcome to attend Management Committee meetings. Sean Dillon added that minutes from every meeting are available to members should they be requested. It was suggested by Norma Shannon that the minutes be posted on the website for viewing.

Evan Acton stated that every letter that is written and sent to the Operations Manager, is read, tabled and discussed at the Management Committee meeting following its receipt.

Mick Cole expressed his concerns in regards to ACA's in action towards the problem of people not getting in to campdrafts. Sean Dillon addressed this expressing that that a rule was put through at the Management Committee Meeting held earlier in the day to eliminate the issue of committees picking and choosing which events are affiliated on their programs, thus allowing more competitors to nominate.

Holly Dawson also expressed her concerns of members not getting in to campdrafts. Hugh Philp responded to this with some restrictions from the ACA General Information Competition Rules and Guidelines that ACA Affiliated committees can impose to get the maximum number of members into each event. He also mentioned that Secretaries Forums are available and a great tool to help get information across to ACA Secretaries. Mac Shann added that anyone can get in and have a go, start a committee and put back into the sport.

Norma Shannon raised her concerns about the 50% increase on membership fees that is applied to memberships paid after 31 January. Hugh Philp responded that the same increase was in place last year with no complaints from members. Gabrielle Franklin added that the price for administering a membership is still the same and that the additional cost is reflective of how much it increases if a member renews late. Sean Dillon noted that the volunteer status membership option that is available for those attending who can contribute through the committee.

Tom Gleeson said he was against the 50% increase of membership fees paid after 31 January.

#### **Presentation to Outgoing President**

Presented by Incoming President, Rohan Marks.

#### **Meeting Close**

President, Hugh Philp declared the meeting closed at 8:34pm and thanked everyone for their attendance & participation.

## ACA's President Report – Rohan Marks

Good Evening to all of our esteemed guests this evening, including Members, Committee, Volunteers and our Patron, Ed McCormack.

Around twelve month ago, many of you joined us in Springsure for the 2021 Annual General Meeting. This was the most engaging AGM we have had for some time; and our Executive welcomed the interest from, & questions poised by, those in attendance. However, coming away from the AGM, we reflected that perhaps we were not doing the job of being as transparent as we hoped we had thought we had been, and as such, I have kept this in mind in preparing my President's Report for the 2022 year. A reminder to our members that this report is for the 2022 Financial Year, being 1 January 2022 to 31 December 2022. In this year:

- Members embraced the new financial year structure, being 1 January to 31 December, and the introduction of the *month-of-January* renewal period. 72% percent of our total membership for the year paid their membership in the renewal period.
- Membership fees were significantly adjusted. This brought the fees into line with the current day cost of living, but also ensured that our level of service to members & committees would not be diminished over time. For perspective, in the early 1970s (around the time ACA was formed); a meat pie was 16 cents, unleaded petrol was 22 cents per litre, and an ACA membership was \$5.00. In 2022, a meat pie was \$5, unleaded petrol was \$2 per litre and a competing adult membership was \$181.50.
- It is also worth noting here that whilst a competing adult member in 2022 was \$181.50, this is the most expensive of our membership options, and less than 25% of our members are actually paying this much – with couples & families discounts being applied to the majority of memberships purchased.
- 164 committees affiliated with ACA.
- The Campdraft One Nominations Platform was finished, with the final acceptance documents signed in August. This is a strategic vision first envisioned in 2016 by our Management Committee, and after being built in two parts, now realised, six years later. 42% of our affiliated committees used Campdraft One in 2022, most of these using the program before it had even been completed and signed off on in August, indicating the eagerness from our committees for the new software.
- This included the launch of the Riverina Stockfeeds Live Leader Board, which provides free, year round access for members to live scores from all events using Campdraft One in service. The Leader Board launched on June 5, and received just under 47,000 views by the end of 2022.
- \$50,000.00 in enhancements were made to Campdraft One in the last quarter of 2022, based on feedback and requests from Secretaries. The program continues to have notable enhancements made to it, facilitated by our Campdraft One Team, and developed by our IT contractors, NWC Holdings.
- Five judges Seminars were held as well as four youth Seminars and one Starter Clinic.
- Just over 31,400 copies of the ACA News magazine were mailed directly to our members across the year.
- All of our existing sponsors signed for an extension or renewal of their existing sponsorship arrangement, a total of eight sponsors.
- ACA got on the road, with thanks to Supafloats who supplied the first ACA Mobile Office. The ACA Office Team did 28,000 kilometres an averaged ten nights away per month, which is an unprecedented presence of ACA Office Team members at our events.
- Forty judges were appointed to the Trial panel, and eighteen judges elevated to the Open panel.
- The ACA Office Team continued to uphold the Customer Service Policy, which guarantees a reply to any phone call, email or other form of contact on the same business day, or next business day at the latest. With the increased volume of staff travel to campdrafts, fused with the nationwide staff

shortage, this is a credit to the Office Team. The total number of emails received by the ACA Office was just shy of 50,000 for the year, whilst just over 32,000 emails were sent across the course of the year. The total number of incoming calls answered exceeded 12,000 for the year, whilst the total number of outgoing calls for the year exceeded 8000.

- Our Management Committee travelled over 80,000 kilometres collectively to attend three different Management Committee Meetings, held in Springsure, Brisbane and Roma. They undertook this travel, and the associated accommodation, at their own cost.
- 111 resolutions were passed by the Management Committee.
- Forty pieces of correspondence from members or committees were received and reviewed by the Management Committee.
- ACA's delegates for the NCCA, travelled to the AGM held in Canberra; Rohan Marks, Peter Petty, Sean Dillon and Stephen Sheppard.
- After substantial due diligence, ACA switched insurance providers, and arranged specialised cover for cattle donors, a first for ACA & an important step in protecting the donors who contribute so generously to our sport.
- The National Finals were hosted by Springsure Working Horse Association in April, with the event going on to be named the 'Committee Event Of The Year' at the Central Highland Regional Council's Australia Day Awards.
- Our National Finals Sub Committee took a proactive approach to the planning of future finals, determining not only the 2023 National Final's hosts, but the 2024 hosts as well. 2024 will be hosted by Darling Downs ASHS Branch in Dalby.
- A new Tribunal Chair was appointed, Bill O'Toole, with the outgoing Tribunal Chair, Harvey Walters, joining the Management Committee as a Northern Zone Councillor. We also welcomed Robert Daly, Greg Sibson, Jack Southern and Norma Shannon to the Management Committee.

It has been a long road to the realisation of our own nominations platform, Campdraft One, and it's development has attracted significant criticism over the years. I credit those involved in the development for their tenacity; breaking ground on such an ambitious project would no doubt had been hard enough, without adding into the mix the criticism levelled at them. But it is this tenacity that has put our Association in the sound position we are in today. So, I will leave you with one question to ponder this evening. Had we not developed Campdraft One, what was the alternative? The answer to this reveals the ultimate importance of the project, and is indicative of the progressive Association we have, and always will, be.

I move that my report be accepted.

## ACA's Vice President Report – Stephen Sheppard

Good Evening Members, Committees and Patron, Ed McCormack

Thank you for attending the 2023 Annual General Meeting. Tonight I will address the concerns that have been voiced over the legitimacy of the ACA's relocation to Toowoomba, as well as the criticism that has been directed towards ACA Management Committee Members and Office Team.

All decisions in relation to the office relocation were undertaken in accordance with the ACA Constitution. As ACA representatives, it has been difficult to hear disparagement that the ACA Constitution has 'not been abided to' when the document itself is publicly available on the ACA Website for any member to review.

The 'relocation' item was not on any Management Committee Meeting Agenda. On 11 January 2023, the Operations Manager sent an email to the Management Committee, on behalf of the President. This email introduced the relocation item, and asked how the Management Committee wanted to proceed with discussions pertaining to it. 82% of Management Committee Members replied, unanimously voting to correspond by electronic means. This was in accordance with section 24.1 of the ACA Constitution which states: *'the management committee may meet and conduct its proceedings, as it considers appropriate.'*

The use of electronic correspondence, and voting, is further supported in section 24.5 (a) of the ACA Constitution: *'The management committee may hold meetings, or permit a management committee member to take part in its meetings, by using any technology that reasonably allows the member to hear and take part in discussions as they happen.'*

In this same email, the Management Committee were also asked if they supported the relocation. 82% of Management Committee Members replied, unanimously voting to support the decision. In accordance with the ACA Constitution, no formal mover, seconder or motion was required. Section 23.1 states that: *'the management committee has the general control and management of the administration of the affairs, property and funds of the association.'*

Furthermore, section 23.2 states that: *'the management committee has the authority to interpret the meaning of these rules and any matter relating to the association on which the rules are silent, but any interpretation must have regard to the Act, including any regulation made under the Act.'* Thus, if there is any conjecture from other parties as to the interpretation of the rules, the determination of such, falls to the Management Committee.

In regards to the Act, provision is made for the acquisition and selling of property under section 25.2 (c) where it says: *'An incorporated association may, for example— acquire, hold, deal with and dispose of property.'*

ACA are wholly satisfied that all decisions made & actions taken in regard to the relocation have been in accordance with the ACA Constitution, and with the Association's best interest at heart. We understand that a longer lead time, with more member consultation may have been the preferred course of action for many of you, but unfortunately, the necessary time to do so was not available.

There has been some concerns expressed over the ACA's recruitment processes. All vacancies are advertised on the Seek Website. This has been a consistent approach, using ACA's advertising platform of choice, for the past decade. It is not a good use of space to use the ACA News magazine or ACA website for advertising vacant roles, as some have suggested. The Seek Website has nationwide reach, is targeted to job seekers, &

not only connects us with the appropriate talent, but provides us with useful statistics about who, and how many people, are viewing & applying for our vacant roles.

Every attempt to hire out of Roma has been made over the past twelve months, with all positions advertised ex Roma initially. During this time, we had as little as one applicant for a role, and this applicant was unsuitable. Attracting candidates from outside of Roma and who could relocate to the town proved fruitless, due to the lack of accommodation available. At the time of writing this report, there is a total of nineteen advertised rental vacancies for the entire town on realestate.com. The affordability of these, is another issue entirely.

Hence, recruitment out of Toowoomba commenced, attracting five new appropriately skilled team members with ease. To continue to maintain a large office & house complex in Roma, with the majority of our team based in Toowoomba, would not be a good use of member's funds, and as such, discussions surrounding the relocation commenced. ACA currently have zero vacant positions. I would suggest there would be very little other employers in as gracious a position as ACA are right now.

I hope my report tonight has highlighted the circumstances under which decisions have been made. I commend my fellow Executive, Management Committee Members & ACA Office Team for their progressive and responsive approach to the staffing challenge & management of properties owned by ACA.

I move that my report be accepted.

## ACA's Vice President Report – Sean Dillon

Good Evening Members,

The last twelve months has seen a significant and broadly positive growth in the use of social media. Whether we are moving a horse from Mt Isa to Melbourne, selling a dachshund puppy, changing the start time for the Maiden or looking for a lift for kids home from boarding school, the use of social media has changed the way we do business.

Committees have become extremely proactive at both promoting their event & successful place-getters and sponsors, showcasing this wonderful sport in such a wonderful light & manner. Individuals & dedicated social media experts are promoting the horses and characters that make such a fantastic contribution to the sport.

It has; however, also provided a platform for those who wish to perpetrate either deliberate mistruths or attack individuals or the Association. Whilst most of us old hands are relatively immune to personal, unconstructive criticism, it is certainly a deterrent for new comers or potential future leaders in the sport to emerge. But worse than that, the attacks on our staff in recent times have been particularly sickening.

I personally have no problem with social media being used to canvas ideas or seek support for a position. But to use the various platforms to attack judges, cattle donors, volunteers or ACA Office Team either directly or by innuendo is completely inappropriate and needs to cease completely; permanently.

It is important to set the standard for our fellow members, children, new and old members alike, the old saying of the standard you walk past is the standard you accept. So if you see members posting or commenting in an inappropriate manner or crossing the line, please help us straighten out the process a little and call out the comments for what they are, bullying.

Management Committee members, Campdraft volunteers, judges, the whole lot of us do what we do as volunteers to genuinely advance the sport and provide a safe and fun environment for everyone to enjoy. We welcome help and genuine offers of assistance, we truly do. Please recognise that, and ensure that our interactions on or via social media are constructive & respectful.

### **ACA's Vice President Report – Peter Petty**

Good Evening Members, Committees, and Patron, Ed McCormack.

It is with pleasure that I present my first report as Vice President for the Australian Campdraft Association. Our President, & my fellow Vice Presidents, have presented a sound overview this evening, of the current affairs of the Association, and I would like to touch on a few more.

Firstly, sponsorship. ACA has seven rider titles and five horse titles. All of these, bar one, have naming rights assigned to current sponsors. The decision by these sponsors, to affiliate with our Association, some for as long as twenty years, is a strong indication of the value many see in our Association.

Next Campdraft One. Since its completion in August last year, the majority of ACA Affiliated Committees have consistently opted to use the program as their nominations platform. This is a strong display of trust from our committees.

And finally, our Management Committee. I am of the understanding that there are four new members joining the Management Committee this evening, taking the total number of Management Committee Members to forty five. This is a strong display of support from these members who have heeded our calls for more people to come forward and help out.

Value, trust and support. Those are the three notable qualities of our Association I have made mention of in my report this evening, and are three notable qualities I urge all members to take note of moving forward into the coming year: value, trust & support.

I move that my report be accepted.

### ACA's Treasurer Report – Ian Watson

Good Evening to everyone in the campdrafting committee that has joined us here for tonight's Annual General Meeting. Please accept my apologies that I am not able to be here with you all this evening.

It is with pleasure that I present the financials, and results of the audit, for the 2022 Financial Year. This year, the audit was completed by Power Tynan. A draft report has been received by our Executive. It is available right now, on the ACA Website, for all members and committees to peruse. Alternatively, there are a couple of printed copies here with our ACA Office Team this evening if you would like to look at them. And, as with every year, relevant parts of the financials, and the audit reports, will be printed in an upcoming ACA News magazine.

At the end of 2022, the Association liabilities were made up of just under \$500,000.00 cash at bank and approximately \$2.3 million in plant, property and equipment. The plant, property and equipment was made up of the ACA Office Building, the ACA House, the Campdraft One Software, the ACA Computer Server & the ACA Mobile Office Trailer. Therefore, total assets came to approximately \$2.8 million.

Liabilities at the end of the year were minimal, totalling approximately \$150,00.00, and made up of staff leave liabilities, supplier payments, & statutory obligations such as superannuation and taxes. This figure excluded the remaining liability payable to NWC Holdings for the Campdraft One software, which was \$876,000.00; however, I note that, it sits on the balance sheet at a value of approximately \$1.7 million, after depreciation for the year end was applied.

Looking now to budget performance, expenditure for the year was within the approved budget of \$1.7 million, with the actual coming to a total of approximately \$1.4 million. Actual revenue was \$1.6 million, which was \$100,00.00 shy of the \$1.7 million dollar budget.

I would like to note the work of ACA's Administration Lead, Kelly Duncan, in preparing for and taking part in, the 2022 audit. Your thorough, diligent and responsible approach has been noted by many of us.

Should you have further questions, I welcome you to submit them to the Operations Manager following the conclusion of this meeting, and I will reply to you in writing, within ten business days.

Thank you for your attention to the finances of the Association this evening. In closing, I move that:

My report be accepted, & that Power Tynan be retrospectively endorsed as the auditor for the 2022 financial year, as well endorsed as the auditor for the 2023 year, and that the powers be delegated to the Executive to accept the final financials & audit report when received.

May I have a seconder for this motion?
